

Bermuda Sub-Aqua Club

At Bermuda Sub-Aqua Club we love to SCUBA dive!

Bermuda Sub-Aqua Club is a Bermudian Charity formed over 46 years ago to promote recreational diving, scuba-diving training, scuba-diving expeditions, underwater photography, environmental awareness, and a variety of social events that ensure that diving remains both safe and fun!

At Bermuda Sub-Aqua Club we provide a full training programme that enables divers to progress through a framework of qualifications at their own pace – from absolute beginner to the more experienced. All our diver training courses are delivered by qualified instructors through our BSAC club over a series of weekly evening sessions and weekend open water training,

At Bermuda Sub-Aqua we dive regularly with each other for fun and as opportunities to hone our diving skills. Members post dives through our Diving Officer (to keep us safe and within the guidelines). The club also has a **compressor** for filling air tanks, and a limited supply of SCUBA gear which members can borrow if need arises.

Bermuda Sub-Aqua Club is a branch of the British Sub-Aqua Club, a worldwide group of people who share a real passion for scuba diving, providing an internationally-recognised diver training and development programme via a network of clubs and centres. The president of BSAC is HRH The Duke of Cambridge. Each month members receive SCUBA magazine to keep them up-to-date and informed.

At Bermuda Sub-Aqua Club we enjoy working with other agencies: from Environmental groups like Keep Bermuda Beautiful, BAMZ/BZS, and The Lionfish Task Force, to the Royal Bermuda Regiment and internationally renowned scientists and researchers. We seek not only to promote safe diving, but sustainable diving. In our club we seek to improve environmentally sustainable practices in Bermuda and beyond.

At Bermuda Sub-Aqua Club we know that Bermuda has a number of excellent dive operators, and many of our divers may have had their first diving experience with one of them, and use their services to enjoy dives that would otherwise be out of reach. These are commercial operations whose professionalism we respect.

Bermuda Sub-Aqua Club is not a commercial operation. We are a charity made up of folk who just love to SCUBA dive. So, whether you're a qualified PADI (or other agency) diver or only just started, tried it on holiday or would like to learn to scuba dive - if you want the highest standards of training and great diving in good company, then BSAC is for you.

At the Bermuda Sub-Aqua Club we love to SCUBA dive, and we think you might to! Come and visit us any **Wednesday night from 7:30pm at 2 Admiralty Park** (the pink building just inside the entrance to the park) to find out more.
